CHEMICAL

EXCLUSIVE REPRESENTATION IN INDIA

Process Control and Visual Control System: Lumiglas Sight Glass Fittings, Lumistar Luminaires and Camera Monitoring Setup.

EPDM and PTFE/EPDM one to one replacement diaphragms for Bioengineering, Gemu, Burkert, Saunders etc valves

Velon Industrial Inc. is a leading manufacturer of high technical flexible hoses and supplier of [hose assemblies](#).

ASME BPE, 3A, BS, DIN Standard Tubes, Fittings, Valves & Sanitary Application Pumps.

ASME BPE, 3A, BS, DIN Standard Tubes, Fittings, Valves & Sanitary Application Pumps.

ASTM 270 Electro polished/ Mechanical Polished Tubes & Complaint to ASME BPE Standard, Fused Sight Glasses & Sight Glass Fittings, Hose End Connectors.

Diflon design and implement PFA and PTFE coatings for third-party products. For example Valves, Pumps, Sample collectors, Couplings, Sight glasses etc.

PAPENMEIER

lumiglas[®] SCHWERTE, GERMANY

Highly efficient Lumiglas components for optimally illuminating tanks, containers, agitators, separators, pipelines and other, generally closed, vessels in potentially explosive and other industrial facilities.

Product Range

- ❖ Sight glass fittings and accessories
- ❖ Sight glass discs
- ❖ Sight glass luminaires LED
- ❖ Vehicle luminaires
- ❖ Ex camera systems

PAPENMEIER

lumiglas[®]

SCHWERTE, GERMANY

- Camera with fixed lens K55-HD-Ex/K55-4K-Ex
- With these standard cameras, the lens is permanently adjusted to the object to be observed during installation (outdoor area/outdoor plant or process parts such as boilers or agitators).
- The VISULEX camera system is ideal for the inspection, documentation and remote monitoring of process operations in potentially explosive and aseptic environments.

Seseca Inc. was founded in 2018 in the City of Zug / Switzerland

We are specialized in providing top quality consumables and spare parts for pharmaceutical/biotech facilities and we also provide a wide range of engineering assistance services for your projects or maintenance purposes.

Diaphragms for GEMÜ, SED, GF, Bioengineering valves, Saunders & Bürkert valve.

We produce EPDM and PTFE/EPDM diaphragms which are compatible with the most diaphragm valves

Our Head of Products has over 24 years experience in the pharmaceutical field and has worked globally with many big players in the pharmaceutical and biotech manufacturing field.

- Velon Industrial has been at the forefront of fluid handling solution professionally and offering high quality flexible hoses and customized fluid transfer production, that are widely used in food and beverages, pharmaceuticals.
- VELON pharmaceutical grade platinum vulcanized [silicone hose](#) has complete certifications, safety and reliability, and meets FDA, USP, BFR and other food and pharmaceutical certifications. It has the characteristics of high cleanliness, non-toxicity, and tastelessness. Used in high cleanliness industries such as food, beverage, cosmetics, pharmaceuticals, etc., [CIP and SIP](#) cleaning can be performed.
- We have successfully developed flexible hoses with a maximum of 100 meters to support a massive working pressure of 150000 psi, fire-rated hoses that can operate for 30 minutes in 800°C fire, blowout protection hydraulic control hoses and other products with extreme requirements.

Tri-Clamp Gaskets Features and Benefits:

- Made from platinum cured silicone resin.
- Hygienic Design and Smooth surface.
- Conforms to ASME BPE standard.
- Conforms to FDA 21 CFR 177.2600.
- Masters CIP- and SIP-cleaning processes.
- Available with other materials like PTFE, EPDM, FKM etc.
- Available with DIN 32676 and ISO standards.

- ❖ KINGLAI Founded in 1991, in Taiwan is one of the world fastest growing manufactures for components and fitting in sanitary piping systems & vacuum technology systems.
- ❖ ASME BPE Certified Stainless Tubes & Fittings Manufacturer.
- ❖ KINGLAI Products meet all standard in ASME BPE, 3A, BS, ISO and DIN. KingLai is 3A & ISO 9001-2000 and ASME Bio Processing Equipment (BPE) certified manufacturer.

KingLai Group's centrifugal pumps include KL-C Series Sanitary Centrifugal Pumps and KL-S Series High-efficiency Centrifugal Pumps. Through targeted selection, the two types of centrifugal pumps can be applied in almost all the scenarios requiring sanitary conveying.

- ❖ F-type seal ring
- ❖ Connection of pump spindle
- ❖ Stable mechanical seal
- ❖ Open-type impeller design
- ❖ Pump case - Made of high purity 316L
- ❖ stainless steel

Yuanan 远安

Product Concept
More Precision, Much
Better, All Made in Yuan!

Yuanan

The Sincerity Wins The Future

- Zhejiang Yuanan Liquid Equipment Co,Ltd, located in Wenzhou Binhai develop zone, with an building area of 56,000 , 220 employes, aimed to be a green, healthy, automatic, intelligent modernized factory.
- Yuanan mainly produce sanitary valves, sanitary pumps, sanitary tubes, sanitary fittings. Products are widely used in bio-tech, pharmaceutical, brewery, dairy, food & beverage, ice-cream, cosmetics, paintings, water treatment,etc.
- Yuanan workshops are equipped with imported world class CNC machines, and technical cooperation with Germany.
- Products are strictly according to ISO, DIN, ASME BPE, SMS, 3A standard, quality totally conform to industry standard.

Rakean Inox

Rakean is our in-house brand to provide the solutions for niche products which are globally hard-to-source by the process industry.

- Rakean provides a range of fused sight glass as per the specifications of ASME BPE and other sight glass fittings as per 3A standard.
- Rakean also provides ASTM 270 Electro polished/ Mechanical Polished tubes complaint to ASME BPE standard.
- Rakean Provides wide range of the Hoses End Connectors.
- All materials are quality checked by our Quality control personnel to ensure highest level of quality parameters and certifications, marked and packed as per prescribed standards.

DIFLON

T E C H N O L O G Y

MILANO, ITALY

Diflon design and implement PFA and PTFE coatings for third-party products. For example:

- Valve bodies
- Pump bodies
- Quick couplings
- Sample collectors
- Sight glasses
- Butterfly valve lenses
- Other products upon request

We provide detailed engineering services, including technical drawings and material lists for plants that utilize internally fluoropolymer-coated steel materials.

DIFLON

T E C H N O L O G Y

MILANO, ITALY

- ❖ DIFLEX is resistant to almost all chemical products, pH 0 - 14, strong acids and alkalis, solvents, chlorine, catalysts, liquefied gases, steam, diathermic oils, food, pharmaceutical, petrochemical products, etc.
- ❖ Recommended for use in the chemical, petrochemical, food, pharmaceutical, cryogenic industries, etc.
- ❖ DIFLEX resists high compressions, remaining elastic.
- ❖ DIFLEX does not absorb humidity.
- ❖ DIFLEX remains non-adhesive at both high and low temperatures.
- ❖ DIFLEX resists atmospheric agents and does not undergo aging even in a marine environment.
- ❖ DIFLEX is completely antacid.
- ❖ DIFLEX is non-toxic.

OUR SERVICES

SERVICES:

InLine Technologies will provide the advantage of swift & prompt services right enduser location with technically trained personnel.

LOCAL INVENTORY:

InLine Technologies maintains a substantial local inventory base in India with almost the complete product range of all our partners.

LOCAL TECHNICAL SUPPORT:

InLine Technologies has a pan India presence, and we can provide assistance on every aspect of our product line locally through our local product specialists.

LOCAL COMMERCIAL & LOGISTICS SUPPORT:

When time of delivery becomes critical, InLine Technologies' constantly updated local inventory helps us provide instant deliveries to customer at affordable price points as per customer requirements.

OUR TEAM

We have a team of dedicated professionals which constitutes of

- Sales & Product Specialist – 06 Nos
- Service Support Specialist – 03 Nos
- Back Office Support - 02 Nos
